

SAP PowerDesigner End of Life: What It Means for Your Data Modelling Strategy

- **SAP PowerDesigner Support Ending**

SAP has officially announced the end of life for PowerDesigner. Ongoing support, updates, and security patches will no longer be available — putting your data modelling environment at risk of obsolescence.

- **The Clock is Ticking**

Without an actively supported data modelling solution, you face potential compliance risks, performance issues, and operational inefficiencies. Don't wait until it's too late.

Switch to a modern alternative

Meet Your Perfect Replacement: **erwin Data Modeler (erwin DM)**

- **Trusted by Leading Enterprises Worldwide**

erwin DM is the industry's most widely used data modelling solution — helping organisations standardise, govern, and optimise their data assets with confidence.

- **Everything You Loved About PowerDesigner — and More**

Seamless logical and physical data modelling, forward and reverse engineering, metadata management, and integration with enterprise architectures — plus enhanced governance and collaboration capabilities.

- **Future-Proof Your Data Strategy**

erwin DM is continuously updated to support the latest cloud, hybrid, and on-premise platforms, ensuring you're ready for today's needs and tomorrow's innovations.
